

The United Thank Offering Presents:
Waves of Gratitude

A Vacation Bible Camp Curriculum Focused on Gratitude

If you are looking for ideas to expand the water station on the last day, here are a couple. They do require adult work to get them to a point a kid could finish them, but if you have some willing volunteers these could be fun expansions.

This page has a step by step set of instructions for building a water squirter out of PVC pipe.

<https://frugalfun4boys.com/make-pvc-pipe-water-shooter-toy/>

From the same blog as above, here's an easy water balloon catapult.

<https://frugalfun4boys.com/build-water-balloon-launcher/>

For a very easy water balloon upgrade, this page shows you how to upcycle a plastic shopping bag into a parachute for your water balloon.

<https://www.fantasticfunandlearning.com/water-balloon-parachute.html>

One way to expand the water day activities is to find reusable water balloons – they look like an asterisk made out of sponges. You can buy them, or here is a blog to teach you how to make them.

<https://bigfamilyblessings.com/how-to-make-sponge-bombs/>

There are a lot of great ideas online so feel free to do your own looking around if none of these fit your needs.
